

Baton Society To Sponsor All Tech Sing

**First Competition
Since '36 To Be Held
In Walker Memorial**

Once again reviving the old custom at Technology of tuning out in numbers and singing, the Baton Society is sponsoring the first competitive All-Tech Sing since 1936, to be held at 9 P.M. on Friday, December 5, in Walker Memorial. This year's revamped edition of the competition is being presented with the purpose of promoting a general interest in music at the Institute.

Dancing is planned for after the sing, and the whole affair is free. Announcing the 1941 edition of the All Tech Sing, the Baton Society last night issued the exhortation: "Let everyone get behind this thing; come, sing, bring a date, dance, and have a whale of a time."

Judges, chosen by the Baton Society, will award a silver cup to the winning team, which will maintain possession for the ensuing year. The competition, it is hoped, will be held annually.

Teams may be entered by any frat-

Dorclan Society Holds Initiations

**Twenty New Men
Give Stage Show
At Formal Banquet**

Initiation of the new members of Dorclan, honorary Dormitory society, was held Wednesday, November 5, in Pritchett Hall. The first of the semi-annual formal dinners of the society was held Thursday night in Pritchett Hall.

Under the direction of Morris A. Steinberg '42, in charge of the initiates, Theodore Cale, Jr., '43, Fred J. Fleischauer '42, Henry M. Tiedemann, '42, John V. Minges, '42, Harry deW. Ottinger, Jr., '43, Lloyd J. Perper, '42, John B. Mackenzie, '43, Robert J. Solenberger, '42, Francis B. Herlihy, '42, Herb G. Twaddle, '42, Louis E. Stouse, Jr., '42, Fred Kaneb, '43, Charles H. Lawrence, '42, James A. Malloch, Jr., '43, Donald W. Augusterfer, '42, David J. Cavanaugh, '42, Michael Salvatore, '43, Jack Madwed, '42, Monroe R. Brown, '42, and Russell A. Thompson, Jr., '42 performed their secret errands. Although secrecy was the rule, it is known that this initiation ranks among the more gruesome.

The formal banquet, held last night, had as its main attraction a stage show involuntarily staged by the inducted members.

Sisco To Speak At M & M Picnic

The annual fall chowder party of the M.I.T. Mining and Metallurgical Society will be held on Thursday, November 13, in the Richards Ore-Dressing laboratory at 6:00 P.M.

As has been the custom in former years, clam chowder, hot dogs, sandwiches, ice-cream and coffee will be served in abundance. All metallurgy and geology students are urged to attend with or without dates.

The speaker of the evening will be Mr. Frank Sisco nationally-known metals expert, and former Chief of the Army Air Corps Metallurgy Laboratory. Mr. Sisco will talk on "Metals in the First and Second World Wars." The price of the meal will be sixty cents per person.

Rowe Speaks On Technology Over WHDH

Describing current activity around the Institute, Stewart Rowe, '43, was one of four student speakers in a program of the "College Campus of the Air" over station WHDH yesterday afternoon at 3:45 P.M.

Rowe discussed the results and implications of the results in the recent The Tech poll on the student's attitude towards world conditions. Also he told about the founding of Vu, Technology's new pictorial, which went on sale yesterday morning. Rowe expressed confidence and optimism about the new magazine. Finally he mentioned the research activity at the Institute.

The speaker from Harvard spoke on the attitude of the students towards the bringing of movie stars to Harvard functions, and its possible effect on the dignity and standing of the University. The other two speakers on this program, sponsored by the Universalists, were from Simmons and Boston University.

Record Attendance For Soph Prom Now Expected

**Krupa and Statler
Attractions of Event
To Be Held Nov. 14**

With ticket sales already nearly record breaking for the Sophomore Promenade to be held from 9:00 P.M. until 2:00 A.M., the night of November 14 in the Hotel Statler ballroom, the Prom committee expects to have sold over 300 options by the end of the week, to dancegoers who have been attracted by that Ace Drummerman, Gene Krupa, and his smooth orchestra, according to publicity manager, Lewis Tyree, Jr., '44. Although the sale has been exceptional so far, there are still some options available at the table in the Main Lobby of Building 10 and from the committee-men.

Redemptions of options for the dance have started and along with the redemption of options goes the privilege of reserving tables for the big hop. The options will be redeemable from 12:00 noon to 2:00 P.M., today and all next week. Those who expect to make table reservations should redeem their options immediately and make reservations at the time of doing so, as 56 of the 64 tables available have already been reserved.

'But We Don't Love Harvard Men' Says Shirley Janik, Guest Writer

Editor's note: Not long ago it occurred to the Features Department that it would be a good idea to have columnists at the various girls' colleges around Boston write a guest feature for The Tech. Accordingly, a few letters were sent out, and the first girl who answered was Shirley Janik, features editor of the Simmons News and member of the Class of 1942 at Simmons College. Practically a local girl, she comes from Quincy and is a brunette. But we will let her speak for herself.

November 3, 1941
Simmons College

Dear Stewart:

But Simmons girls don't love Harvard men! The statistics on the Fenway show that something like 85% of Simmons girls marry Tech men. And heaven help the dance chairman who suggests holding one of our dances on the same night as a Tech dance. 'Nuff said!

People always expect Simmons girls to be serious so I will look over my list of topics of what a typical Simmons girl should write about and

\$1115 Needed For T.C.A. Goal

**Red Cross Gets \$278,
W.S.S.F. \$196, as Drive
Nears Climax**

The Technology Christian Association's financial drive total reached \$2,985 by 9 o'clock last night which brings the amount within \$1,115 of its goal. Although this amount is less than that made at a corresponding time last year, if you consider the \$278 donated for the Red Cross, and the \$196 for the World Student Service Fund, the total is approximately the same. Drive Chairman Clinton C. Kemp, '43, has exhorted his 255 solicitors to make every effort to "hit the top" by 6 P.M. tomorrow, when the campaign officially ends.

Of the total to date, \$1,447, has been given by fraternities, \$889, by the dormitories, and \$669 by commuters. Ten fraternities have a record of 100% of their members contributed. They are: Lambda Chi Alpha, Pi Lambda Phi, Phi Beta Epsilon, Phi Delta Theta, Phi Mu Delta, Sigma Alpha Epsilon, Sigma Nu, Sigma Alpha Mu, Theta Xi, and Chi Phi. The other fraternities, and their percentages are: Alpha Tau Omega, 70%; Beta Theta Pi, 60%; Delta Kappa Epsilon, 79%; Delta Psi, 74%; Delta Tau Delta, 62%; Delta Upsilon, 3%; Kappa Sigma, 70%; Phi Kappa Sigma, 67%; Phi Sigma Kappa, 35%; Sigma Chi, 95%; Theta Chi, 23% and Theta Delta Chi, 52%.

None of the dormitories has as yet contributed 100%. The figures available are as follows: Atkinson, 70%; Bemis, 6%; Crafts, 54%; Goodale, 54%; Grad House, 25%; Hayden, 53%; Holman, 38%; Munroe, 57%; Nichols, 65%; Runkle, 42%; Walcott, 54%; Ware, 7%; and Wood, 40%.

Debating Team Beats Holy Cross

**Second Radio Debate
Of Year Won By
Musgrave, Redheffer**

The Technology debate squad added another victory to its record by defeating the College of the Holy Cross in a debate, which was broadcast over the Colonial Network yesterday afternoon. This was the second varsity radio debate of the year.

The debate was held in the informal Oregon style on the subject, "Resolved, that preliminary training in a skilled trade should be a prerequisite for a non-technical college degree." Under this Oregon style, which is being tried out at Technology for the

Juniors, Seniors Elect Committees For Prom And Senior Week

New Hours Announced For Lindgren Library

Necessary funds have been appropriated, and accordingly the Lindgren Library will from now on be open evenings and Saturday afternoons, according to an announcement made last night by Miss Grace E. Bogart, librarian of the Lindgren Library.

This library, located in room 8-304, is the library of the department of Metallurgy. The new hours will be from 9 A.M. to 9 P.M. weekdays, and 9 A.M. to 4 P.M. on Saturdays.

Vu Cash Sales Exceed 1200 On First Day

**Stroboscopic Photos
By Prof. Edgerton
Featured In Issue**

Cash sales of over 1,200 copies on the first day of sales is the record hung up by Vu, The Tech's new pictorial magazine, yesterday. This is the highest record of cash sales ever made by a Technology publication. Sales at Technology are being continued today, and sales at Wellesley will be started next week.

"Edgerton and the Stroboscope" is the title of one feature, which includes several pictures taken by Edgerton and with his equipment. Wellesley College comes in for a three-page spread with pictures of the students and the place where they go to school.

Notable in the issue were two pictures taken at the Field Day Dance with Professor Edgerton's stroboscopic lights, one full page shot of a conga to the rhythms of Claude Thornhill. Also treated were Field Day, various news events of the fall, the Nautical Association, and the fall social season.

William A. Rote Chosen Maestro

**Elected By Members
Of M.I.T. Orchestra**

William A. Rote, '42, was chosen Orchestra Leader of the M.I.T. popular orchestra at its meeting last Wednesday at 5:00 P.M. Assisting him will be Richard Eric Seaman, '44, assistant leader, and Arthur J. Power, '42, manager, who were also chosen at this meeting.

It was decided that the orchestra will consist of 13 pieces, and, with the exception of one more tenor Saxophone and a String bass, the group is complete. Therefore, anyone who plays the required instruments is asked by the group to see Bill Rote at any rehearsal time. Also passed was a motion to have rehearsals on Mondays at 8:00 P.M. and Saturdays at 2:00 P.M.

Classical Officers

The classical orchestra also elected officers Wednesday night. Robert Von Berg was chosen Student Leader, aided by Milton E. Borden, Jr., '43, Recorder, Rowland Benjamin, Jr., '44, Librarian, and Gordon Reisbech, '45, Stage Manager.

Twenty-nine men were present at the last rehearsal on Wednesday. Although the string section has been enlarged to eleven pieces, positions are still open for another cello, two violins, and two violas.

Rehearsals will continue to be held every Wednesday evening in the Litchfield lounge at 8:00 P.M., and anyone interested in joining the organization may see Bob von Berg at that time.

Little Interest Shown; Voting Requires Only 231 Ballots

With the small number of only 231 upperclassmen voting, the elections of the five members of the Junior Prom Committee and the twenty members of the Senior Week Committee were held in the Main Lobby of Building 10 last Wednesday.

184 Seniors voted in the choosing of the Senior Week Committee, which manages the various Senior activities next spring, such as the baccalaureate service, the commencement exercises, the Senior ball and banquet and other events. At the same time 147 Juniors were selecting the men for their Prom Committee, which will assist the class officers in making arrangements for this important affair.

Those elected to the Senior Week Committee are: John S. Arend, Paul

November T.E.N. Out Wednesday

**Contains Article
By Professor Wilbur
On Wind Power**

The November issue of The Tech Engineering News will appear on sale next Wednesday and Thursday, November 12 and 13. Besides three articles by members of the staff, the magazine contains stories by Mr. R. B. Semple of the Monsanto Chemical Company, and by Professor John B. Wilbur of the Institute staff.

Professor Wilbur's article deals with the wind power project, which has been making news in engineering circles lately. Professor Wilbur was chief engineer on the project to harness the wind and commercially generate electric power by this means. The story concerns the problems involved in the design and construction of the 175-foot windmill in Vermont, which is being used to determine the feasibility of the project on a larger scale. The article comes within a few days of the issuance of the current Fortune Magazine with another article on the subject.

Pilot Plants

"The Pilot Plant" is the title of Mr. Semple's article. Monsanto Chemical's assistant director of development, and a Technology graduate, Mr. Semple

Dorm Men To Fete Profs At Dinner

The first Bull Session Dinner of this year, sponsored by the Dormitory Committee, will be held November 18 in Pritchett Hall. Due to their past popularity, the series of dinners given to further the acquaintances between professors and students have again been revived.

The Dinner consists of a number of tables, each seating six students and a Professor of their choice. After the meal, there is a general "bull session" in which all guests participate.

Table cards, necessary to reserve a table, are given out by James A. Malloch, Jr., '43, Joseph Kaufman, or Gene Schnell, '44.

LET'S ALL-SING TOGETHER

The unearthing of another old tradition has gained further momentum with the setting of December 5 as the date for the All-Tech Sing being sponsored by the Baton Society. Offering a silver cup, donated by a faculty member of their Advisory Committee, to the winning group, Baton Society is renewing this event after a lapse of five years.

The All-Tech Sing in years past was always regarded as one of the main social events of the year and was held at one of the major class dances. It served several functions then as it should now. In the first place it promoted an interest in music which is healthful for a collegiate group, in the second it gave the different groups a chance to show off their talent in singing their own songs, and in the third it was one competition in which all groups could participate upon a comparatively equal basis.

In addition to the singing competition, this year the society is holding a dance afterward so that the spectators and contestants can make it a definite social affair of the week. Fortunately, the Baton Society, which is the honorary society for all the Musical Clubs, has been farsighted enough to make the announcement early so that the various groups can begin practice.

No stiff rules and regulations have been formulated so that the form of the competing team and its selection are entirely up to the individual entrants. Trick arrangements and novelties can easily have their place along with school fraternity or other songs. The selection of the song can be just as important as the quality of the rendition, within reason of course.

Some group is going to win a loving cup to adorn a mantelpiece, but everybody who participates or spectates should have a good time at this musical get-together. Practice begins immediately.

A CREDIT TO THEIR CLASS

The Sophomore class may have been a little lax on Field Day spirit, but the Sophomore Prom committee has definitely made up for this lack several fold. Most dance committees are enthusiastic about their dances as they

rightfully should be, but it has been a long time since the Institute has seen a committee with so many progressive ideas and the spirit to put them across.

If ever a dance committee deserved the support of their class, this one certainly is the one. If the actual dance goes off with the style and originality that has been displayed during even essential sales campaign, it promises to be a good one.

To start off, the posters advertising the display were more than the stereotyped affairs that are usually used. Although this could have been enough, it was followed by the novel idea which gave a moment of fright to the many car owners among the student body, the yellow MDC parking tags. Other committees may have had such clever ideas but they usually fail to follow them through.

Then when the flurry caused by this had calmed down to an amusing memory, The Shaft appeared from out of nowhere. Although not the last word in journalism, it combined the form of The Tech and a little of the spirit of Voo Doo—if that can be said to have any spirit—to tell the Sophomores that they were having a dance in the near future. Another exhibition showing the originality of the committee.

This committee has definitely established a new order for dance committees to live up to and yet has remained high in its standards, not yet stooping to the use of "the eternal wiles of the female" as have some other organizations not worth mentioning here.

The Tech hopes that the Sophomore Prom committee has a successful Prom. By all rights they more than deserve it.

TO PARK OR NOT TO PARK

Every so often, complaints come to The Tech concerning the parking situation at the Institute. At the present time, most of the major problems have been handled satisfactorily, but there are several minor items that need clarification.

Some students have been parking in the No Parking area on Memorial Drive from the entrance to the underpass to Massachusetts Avenue. In all fairness to the MDC authorities, this practice should be discontinued. Last year, The Tech contacted the MDC and requested that the No Parking restrictions which were in existence along the whole Institute side of Memorial Drive be removed. These restrictions were removed with the exception of the short distance along the underpass where traffic conditions are the worst. Because this area has not been left open the No Parking sign has been moved farther down in front of the Institute. By co-operating, we can maintain the privileges that we have.

Another parking problem that the Institute should tackle is that of marking a lane on the Coop parking area so that there would be easier access to it. As conditions stand now it is necessary to drive across the walk to the Field House to get to the larger part of the area since one car usually blocks the entrance. One well marked lane would eliminate this trouble.

IT HAS COME

Our new child has been born and from all indications, it is a whopper. Frankly, we are proud of it, and we wish to publically thank all those that have worked so hard to make the initial step a successful one. The staff of Vu has done a splendid job of taking an idea and moulding it into a product worthy of Technology.

The first sales day saw a practical sell-out of copies available for distribution, but a reprint is being planned for those students and faculty members who desire copies to keep or send to their friends. Vu's main function is to record the events of Technology life so that they can be kept in permanent form by those interested in these affairs.

Vu has attempted to be your magazine. It will continue to do so. Your suggestions and criticisms will be appreciated if they can in any contribute to the quality and scope of your magazine.

For Boys To Play

by Stewart Rowe and Joseph Tankoos

¶ This week-end is a sample of what we really like to see around here. Perhaps a little too much of the good thing, but very satisfactory nevertheless. Three dances each night really gives a smooth week-end.

¶ The Phi Beta Epsilon gang seems to be going in for this social stuff in a big way with a dance on both Friday and Saturday, and a house party at their fraternity house. Oh, yes, and a picnic for members and their dates on Saturday afternoon, weather permitting. The Friday night dance is at their Memorial Drive home, and the affair on the next evening at the Woodlawn Country Club in Newton, where the atmosphere seems to be bringing more and more Tech dances.

¶ Friday night Phi Mu Delta is having what promises to be a very enjoyable party at the Parker House. The Hawthorne Room is the place, on the second floor of "Boston's most distinguished hostelry." Don Gahan and his orchestra (we think) are supplying the music, starting at 9 P.M.

¶ Also on Friday is a formal at the D. U. house. Bob Rumsey tells us that it is scheduled to start at nine also. Knowing the parties the D. U.'s have turned out in the past we are not worried about having a good time there.

¶ Saturday, besides the Phi Beta dance, Chi Phi and the Student House are both having their annual fall house

dances. The Student House party is the only informal one of the week-end, called a "Blackout Party" with optical and aural effects in keeping with the title. If you hear the screeching of a siren from down on Bay State Road, cross your fingers and hope it is the Student House party.

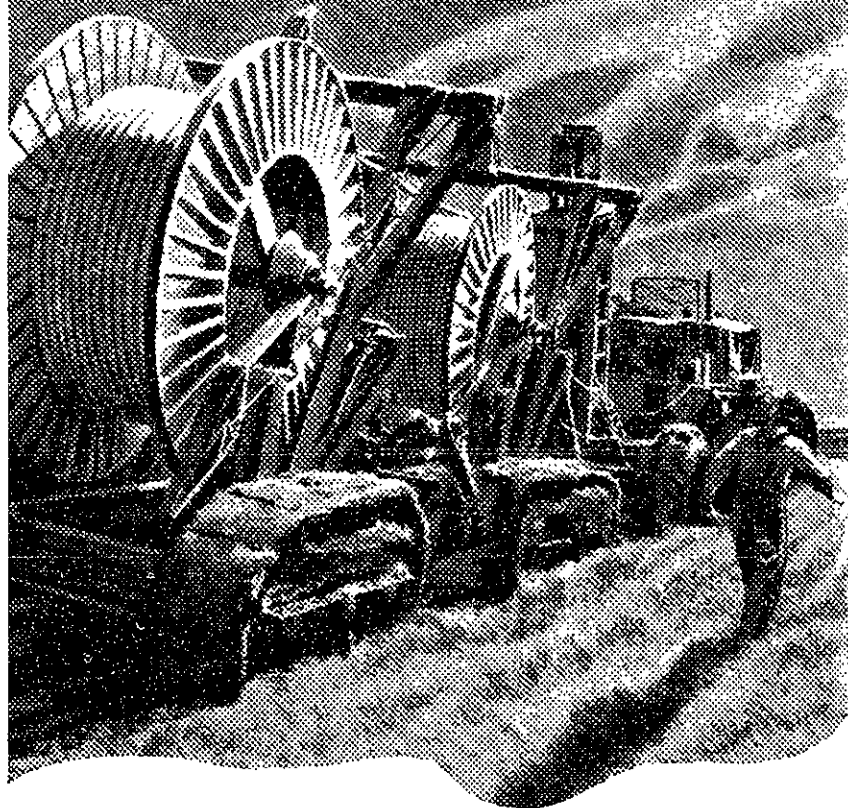

¶ The Fenway Eating and Drinking Club, alias Chi Phi, can usually be counted on for a good party, too. (Just ask us, we'll tell you.) Coe and Henderson won't tell anyone much about the refreshments but we think we saw the makings of infinite numbers of Sea Breezes being spirited into a closet.

¶ Last night we took in the Balinese Room again and were as usual most favorably impressed. Dwight Fiske is one of our favorites, and he seems to have escaped from his usual New York cocktail lounge long enough to spend a few weeks here in Boston amusing the populace.

¶ Hold everything! We almost forgot. This Sophomore Dance is beginning to look more and more like something you don't want to miss. Lew Tyree and his gang seem to be doing a really professional job of assuring SATISFACTION FOR ALL concerned. It is one dance that we are going to attend if we can make it. The smooth running of the dance is directly proportional to the amount of work put into it by the committee, and this committee is we think, really working.

Plowing in a 1600 mile telephone furrow

for defense

To assure coast-to-coast telephone facilities adequate to meet future defense needs, the Bell System is constructing a 1600 mile, \$20,000,000 cable line between Omaha and Sacramento.

Several newly developed "plow trains," working from opposite ends of the line, are burying the cable for maximum protection. They dig deep furrows, lay two cables in them and cover them with earth—all in one continuous operation. Their meeting will mark completion of the first all cable line across the continent. Carrier systems will be operated in the cables—one direction of transmission in each.

This vast project is just one of thousands in which the Bell System is now engaged to provide additional communication facilities so vital to Army, Navy and defense industries.

G. M. Shaw Quakes As Phos Slaughter Draws Nearer

"I am ready to fight to my last staff members—both of them," said Hawk Shaw, in an interview last night concerning the coming massacre on the gridiron to be staged by the staff of The Tech. Mr. Shaw then added, "I have nothing misquotable to add for the benefit of your despicable sheet."

The football teams seem to be well prepared for the great climax Saturday. The Tech's four first string outfits went through a light four-hour workout and tapered off with a nine-mile cross-country run. Voo Doo went through a short signal drill and tapered off on a keg of beer.

Voo Doo's Mighty Mites

The Voo Doo lineup, foolhardy people, will consist of Rumsey, Spitz, Metzger, Feingold, Shaw, Shaw, Shaw, Roden, Swanberg, Shaw, Dennoy, Eisenborb, Shaw, Bauman, Ward and Shaw. This lineup was announced by Shaw. For The Tech lineup, see the forty-nine names in the masthead.

A last minute communication from Voo Doo (Shaw) says that Shaw is to be included in the lineup.

Interclass Crews Race Tomorrow In Intra-Murals

2 Fraternities, 5:15 Will Enter Eights For Beer Award

The Charles River will be the scene of two big intramural rowing races this Saturday, the first of which will be the interclass race, scheduled to start at 3:30 P.M. Representative crews from the Sophomore, Junior, and Senior classes together with a crew composed of graduate students will row the Henley distance, one mile and five sixteenths, beginning at the boat house and rowing downstream, past the sailing Pavilion.

The Class of '44 crew, composed of Thiede, stroke; Flowers, No. 7; Soderberg, No. 6; Tyberghein, No. 5; Lehman, No. 4; Sebell, No. 3; Maxson, No. 2; Turner, Bow; and Rockett, coxswain is favored to win, although the graduate oarsmen have been out for more practice than any other group. Incidentally, the graduate crew boasts one man named Senior, who rowed for Harvard.

The second race of the afternoon to be held at 4:30 will be the Interfraternity and club race of one mile, in which Sigma Alpha Epsilon, Phi Kappa Sigma and the present holder of the title, the 5:15 Club, among others, will participate. It is understood that the participating groups will be required to pay an entrance fee to be used for the purchase of a keg of beer to go to the winner.

Sophs-Frosh Stage Regatta On Next Tues.

Quadrangle Meet At Brown; Women To Compete On Friday

The freshman sailors will attempt to extend the superiority of their class on Tuesday when they encounter the Sophomore tars in the annual frosh-Soph Dinghy race. Spirited by their Field Day victory, the first year men hope to prove an even match for their more experienced rivals. This event, which for the first time has not been included in the Field Day activities, is to be held at the Nautical Association Boathouse on Armistice Day morning at 10:30.

The crews have been practicing regularly under their respective coaches, Hans Aschaffenburg for the frosh, and Jim Tyson for the Sophs. According to the coach, the freshman skippers will be Merrow, Danner, Evanas, Foster, McGee, and Quissenberry. Merrow, who is New England Snipe Champion, should cause the Sophs considerable trouble.

Class of '44 Choices

The Sophomore squad will be chosen from Parkinson, Taft, Boericke, Hess, Shrier, Bromfield, and Mavor, who will participate either as skippers or crew men. Each side will be represented by six boats and the race will be run in three or four series.

On the same day, the upperclass yachtsmen travel to Providence where they are to compete in a quadrangular regatta with Brown, Yale and Coast Guard. The meet is to be held on the Seekonk River under the colors of the Brown University Yacht Club.

On Sunday, the 9th, the Annual Greater Boston Intercollegiate Dinghy Championships are to be held at Tech under the sponsorship of the Nautical Association. Crews from B. U., Boston College, Harvard, Tufts, Northeastern, and M. I. T., will compete for the title of Greater Boston Dinghy Champion since no trophy is presented.

The weaker sex will have their fling at dinghy racing on Friday, the 14th, when girls from Radcliffe, New Hampshire, Jackson, Sargent, Katherine Gibbs, and M. I. T. will compete in a meet on the Charles River Basin.

Relay Record Unbroken, Despite The Tech Report

No record was broken by the freshmen relay team in the Field Day race as reported in the last issue of The Tech. The time for the race was 4:52.6 which was actually five seconds slower than the record which still stands at 4:47.6.

However, the frosh team did show the best time and form since the freshmen relay team of 1931, each man averaging 24.35 seconds to the Sophomores' average of 24.50 seconds per man. The last freshmen class to win the relay event was the Class of '41 in the Field Day of 1937.

Tennis Tourney Finals Scheduled

The annual fall tennis tournament will draw to a close this week-end, as the finals of both the upperclass and freshman tournaments are scheduled to be played.

In the upperclass semi-final matches, Kaneb defeated Nelson 6-1, 6-0, and Stouse defeated Kennedy 6-1, 6-1.

The freshman semi-finals resulted in Stoutenburgh's defeating Lull 6-3, 6-1, and Rozzenburg winning over Cabral 6-4, 6-2.

A cup will be awarded to the winner of each tournament at the tennis banquet next spring. In the meantime, all candidates for the team are urged to practice on the bangwall in the Hangar Gym.

Touch Teams Still Battle

Intramural Tournery Progresses With 9 Teams Undeclared

Briggs Field will again be the scene of strife when on Sunday the remaining Beaver Key touch football teams meet to further diminish the number of contestants. George C. Marakas, '43, chairman of the Beaver Key committee, has prepared the following schedule: at 9:00 A.M., Alpha Tau Omega vs. Monroe; Goodale vs. Senior C; Student House vs. Wood; Sigma Alpha Epsilon vs. Kappa Sigma; Delta Kappa Epsilon vs. Delta Upsilon.

At 10:15 A.M., Sigma Nu will play Phi Delta Theta; Sigma Chi vs. Delta Tau Delta; Phi Beta Epsilon vs. Beta Theta Pi; Senior A vs. Phi Mu Delta; Phi Kappa vs. Sigma Alpha Mu.

In the afternoon at 2:30, the Commuters take on Phi Kappa Sigma, and Chi Phi will play Phi Gamma Delta.

Still Undeclared

A few of the teams have yet to taste defeat. Sigma Alpha Epsilon, Kappa Sigma, Delta Kappa Epsilon, Senior A, Phi Mu Delta, the Commuters, Phi Kappa Sigma, Chi Phi and Phi Gamma Delta have untarnished records.

Sing

(Continued from Page 1)

ternity house, any of the dormitory halls, the 5:15 Club, the Association of Women Students, the Graduate House, the Faculty Club, and any class A or B activity listed in the T.C.A. handbook.

According to the rules of the sing, as announced last night, each team will be allowed five minutes in which to sing one song. Any number of men may comprise a team. The order of singing will be determined by lot.

Entry blanks must be filed before tomorrow, and may be obtained in Room 302, Walker Memorial. Other rules follow: teams may have their own accompanist or use Glee Club accompanists, music may be borrowed from Glee Club, judging will be based on singing ability, and amount of applause.

Debate

(Continued from Page 1)

first time, each constructive speaker is cross-examined by a member of the opposing team. As a result, the debate is said to be made more interesting, both for the audience and participants.

Shaw Renders Decision

The decision was delivered by Professor Shaw who is a professor of speech at Emerson. In his decision, which was also delivered over the air, he stated that the Holy Cross team had failed to adequately meet the case presented by the affirmative from the Institute. Instead, he stated, they talked about material irrelevant to the subject of the debate.

The Tech team consisted of George M. Musgrave and Raymond M. Redheffer, both of '43. Musgrave was selected by the judge as the best debater in the meet.

M.I.T. Glee Club Concert Tomorrow

A concert with the Pembroke College Glee Club has been announced by the M.I.T. Glee Club for tomorrow evening in Morss Hall of Walker Memorial at 9:00 P.M. to which the public is cordially invited. The program will include six numbers by the M.I.T. Glee Club, which will also take part in four other selections in combination with the Pembroke Club.

The program will be of quite a varied type, starting with the combined choruses singing the chorale "Alleluia" by Bach, and ending with the "Finale from the Gondoliers" by Gilbert and Sullivan.

Spirituals and Folk Songs

The M.I.T. Glee Club will sing one group of spirituals and folk songs, and the Pembroke Club will finish with a group of three Chinese nursery rhymes. The first group of songs by the Tech men will be a group of religious songs.

Admission to the concert is free. Afterwards there will be a dance to which all people who attended the concert are invited. This concert is the first of the Musical Clubs' public activities for this year.

"Hard-to-Get"

FREQUENTLY in experimental and development work, progress is halted for lack of some vital but seldom used part. For such items, try Lafayette's SPECIAL SERVICE DEPARTMENT. We pride ourselves in maintaining a complete line of small parts of every description, in addition to full stock of the parts and supplies of almost every manufacturer in the field.

TRY LAFAYETTE next time for your "hard-to-get" or standard parts and supplies. They are all in our Catalog. Phone Hubbard 0474.

tempt to prove the superiority of the female. Although most of the men have always known how superficial such a pose was, nevertheless it was annoying, I don't doubt. But all that is changed. Girls are feeling a new respect for the opposite sex, but it is too bad it took a national emergency to do it. Frankly, the majority of the girls are happier now than they ever were in their old role. I will probably be banned as a heretic, but I believe that most college girls are at the matrimonial and domestic age and are much happier working toward that end. Some crackpot started that other front a few years ago and made her successors feel that she was passing on a priceless heritage. But today girls are learning to cook (to send cookies, etc. to the O and O at camp) and to knit, and to manage on a small income. They like it and don't let them tell you otherwise! And there has been a regular epidemic of marriages. I am not prepared to say much about the number of marriages that always take place under present circumstances. Those that do marry feel that because of the present chaos you should take your happiness while you can, and the rest are building up a greater respect and appreciation of each other and the future they're hoping for. And no one can say which is right.

I didn't mean to sound like Dorothy Dix, but you said I could write on the price of pickles in Peoria, so instead, like a woman, I tried to give you a representative attitude of Simmons girls toward our present way of living.

Sincerely yours,
Shirley Janik, '42

New Map of Institute Recently Put On Sale

A Humorous map of Technology which consists of a large drawing of the whole Institute showing all the departments by humorous sketches has gone on sale in the Information Office, Room 7-111.

This 12 in. by 15 in. map was prepared by Professor Frederick K. Morris of the Geology Department.

All the proceeds from the sale, at the price of 5 cents per map, will go to the aid of the American Red Cross, which is holding its annual drive in Boston this week.
